CARE AND MAINTENANCE

To preserve the longevity of your stroller, it is important to perform simple, regular maintenance. From time to time, make sure that the joints and folding areas are still in good condition. If you hear any squeaking or feel tension, you can take your stroller to a local bike shop for added lubrication. All repairs should only be carried out by an authorized dealer.

WASHING

Seat Fabric

- DO NOT machine wash fabrics.
- The seat and canopies of our strollers and joggers are made from strong, lightweight, washable fabrics which easily detach from the frame. We recommend to hand wash your fabrics using cold water and a mild detergent. Place fabrics back on the frame and leave outside to air dry. A hot/sunny day is the perfect time to clean your stroller as fabrics will dry quicker.
- If the seat covers need to be replaced, only use parts from a Baby Jogger Authorized Dealer. They are the only ones that are guaranteed to have been safety tested and designed to fit this seat.

Plastic/Metal Parts

- Wipe clean using a mild soap and warm water.
- You must not remove, dismantle or alter any part of the seat folding mechanism or brakes.

Wheel Care

- The wheels can be cleaned using a damp cloth. They will need to be dried completely with a soft towel or cloth.

STORING

- Sunshine can fade seat fabric and dry out tires, so storing your stroller indoors will prolong its good looks.
- **DO NOT** store outside.
- Ensure that the stroller is dry before storing for prolonged periods.
- Always store the stroller in a dry environment.
- Store the stroller in a safe place when not in use (i.e. where children cannot play with it).
- **DO NOT** place heavy objects on top of the stroller.
- **DO NOT** store the stroller near a direct heat source such as a radiator or fire.
