

**This is the Folding Mechanism you will receive**

**Use Bull Nose pliers to remove rivet studs. (Multigrip pliers to re-assemble)**

**Unscrew screws from inside mounting bracket**

**Remove Brake assembly by unscrewing the brake from the legs.**

**Pull Top and bottom sections away from the folding mechanism.**

Now you're ready to re-assemble. Just reverse the steps used to take it apart.

Make sure you use the new plastic pieces that came with your folding mechanism.
